

# Supa-Trac™

## Heavy Duty Event Flooring and Roadway System

Part of the MacroTrac family of matting products in the Americas, Supa-Trac is uniquely durable, yet lightweight, making it the ideal matting solution for turf protection, tent flooring, or anywhere that heavy foot traffic and equipment will travel. Supa-Trac can support the weight of forklifts with pneumatic tires, light trucks, and vehicular traffic. Panels allow light, air, and water to reach the turf, keeping grass alive while protecting turf from being trampled by pedestrians or vehicles. Supa-Trac is suitable for natural and synthetic turf, indoors or out.

Supa-Trac is the most widely recognized design for temporary access mats - covering some of the most valuable turf in the world. From pedestrian access to parking lots, military shelters and helipads, Supa-Trac capabilities have been extensively proven worldwide.

### PRODUCT INFORMATION

Panel Size: **38.0 x 11.0 x 1.4"** (L x W x H)

Panel Area: **2.26 Sq Ft**

Panel Weight: **4.4 lbs**

**High-Impact Polypropylene with UV Inhibitors**

Load Capacity: **36,000 lbs / Sq Ft (250 psi)\***

Fire Ratings: **UL94HB, ASTM 2859**

\*Static load, solid sub-surface. Varies depending on sub-surface.

MacroTrac flooring products are 100% recyclable.  
Please contact Macro Plastics about our recycling program.

# Applications

## EVENTS/CONCERT FLOORING

Supa-Trac creates a contiguous, even, matting surface for level concert seating and walkways. Supa-Trac is incredibly durable and flexible which makes it ideal for short or long-term use. It is excellent for ground protection for stadiums as each panel allows light, air and water to the ground below.

## MILITARY

With its high-load capacity and resistance to fatigue in extreme weather conditions, Supa-Trac is the most widely used temporary matting system by many NATO forces in military campaigns around the world.

## CONSTRUCTION PATHWAYS

One of the quickest temporary access mats on the market, Supa-Trac can be deployed without the need for special tools. ADA Edge Ramps eliminate tripping hazards and provide easy vehicle access. Ideal for parking.

## LIGHT VEHICLE TRAFFICE (TEMP PARKING LOT)

Supa-Trac is the most versatile event matting product on the market. When it claims to be able to handle automobiles and the weight of a forklift there is proof in the results. With a load bearing capacity of 36K Lbs. per Sq. Ft. Supa-Trac out- performs the competition.
